Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Thursday 10 Jun 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Intermittent rain overnight and Friday morning. Warm sunny spells later.

This Evening and Tonight:
Some evening sunshine, but cloud will increase across the region overnight. Patchy light rain and drizzle will spread across western hills by around dawn. Brisk southwesterly winds will develop over hills. Minimum temperature 14 deg C (57 deg F).

Friday:
Cloudy and breezy to start the day with outbreaks of rain and drizzle, these mainly in the west. Dry, warm, sunny weather will develop later as cloud breaks. Dry overnight. Maximum temperature 21 deg C (70 deg F).

Outlook for Saturday to Monday:
Dry, often sunny through the weekend, with mainly light winds. Possible overnight mist and fog patches. Cloudier Sunday night and Monday with possible rain, then brighter later Monday.
